

CARL MARTIN

AMPSTER

AMP SIMULATOR / PREAMP

An all-analog amp-in-a-box with speaker simulation and British-style tone. Ideal for DI setups and pedalboard use.

SPECIFICATIONS

- **Input:** 1M Ohm
- **Output 1/4" unbalanced:** 1 K Ohm
- **Output DI Balanced:** 600 Ohm
- **S/N Ratio:** 56dB
- **Send impedance loop:** 1 K Ohm
- **Return impedance:** 100 K Ohm
- **Power consumption:** max. 600mA.
- **Power supply:** 9 V DC (regulated), 1A minimum, 2.1 mm female plug, center negative (-)

KEY FEATURES

- **All-analog amp simulator with DI out**
 - **Works great with IR loaders and pedals**
 - **Authentic British-style amp tones**
 - **Built-in speaker simulation**
 - **Compact and pedalboard-friendly**
-
- **Dimensions:** 145 x 120 x 70 / 5.71" x 4.72" x 2.76"
 - **Weight:** 0.80 kg / 1.76 lbs
 - **SKU:** CM-AMP
 - **EAN:** 852940000981
