

CARL MARTIN

The Carl Martin CM Acoustic is a 300W amplifier designed to deliver studio-quality sound on stage. Developed and assembled in Denmark, this unit functions less like a traditional combo and more like a professional "mini-PA," offering uncompromising, natural reproduction of both guitar and vocals. Featuring elegant wooden side panels, the CM Acoustic bridges the gap between professional audio gear and exclusive furniture design, ensuring it looks as exceptional as it sounds—whether in a living room, studio, or live venue.

CM ACOUSTIC

KEY FEATURES

True Danish Craftsmanship

Developed and assembled in Denmark, delivering 300W of pure, dynamic headroom.

Dual-Channel Versatility

Two fully independent channels for instrument and microphone (XLR with +48V phantom power), ideal for singer-songwriters.

Premium Custom Drivers

Equipped with two Carl Martin SU65147CM custom full-range speakers for linear, detailed sound dispersion.

Professional Connectivity

Features balanced XLR DI-out for recording/PA, effects loop, and standard 35mm pole mounting for optimal stage placement.

Exclusive Design

A timeless aesthetic combining a black cabinet with warm wooden sides to match high-end acoustic instruments.
